Support the New York State Access to Representation Act

Asylum seekers who receive legal representation are five times more likely to win their case. New York State can make sure that no immigrant fails to access the defenses and protections available to them solely for lack of an attorney by passing the first-in-the-nation Access to Representation Act. The legislation ensures a right to counsel for all immigrants facing deportation in New York (S.81B/A.01961A) and guarantees that no one defends themselves alone.

Visit https://www.nyic.org/our-work/campaigns/access-to-representation for an easy tool you can use to tell Governor Hochul and the New York State Legislature to pass Access to Representation.

Support the Asylum Seeker Work Authorization Act

Right now, asylum seekers are forced to comply with unnecessarily long waiting periods before they are able to legally work in the United States. Without the ability to work, people seeking asylum are deprived of the right to earn an income and support themselves and their families. If passed, this legislation would shorten the waiting periods and make it easier for asylum seekers to obtain a work permit and contribute to their communities.

Advocate for Fair Humanitarian Programs

Right now, Congress is negotiating supplemental funding and budget bills. These must address the humanitarian needs of Ukrainians, Israelis, Palestinians, and many other displaced populations around the world. However, members of Congress are now looking to secure funding for their priorities by using the rights of asylum seekers at the U.S.-Mexico border as a bargaining chip. We must speak out to ensure that populations in need of support are not pitted against each other; they must fund refugee and humanitarian programs, while also not creating new restrictive policies for asylum seekers looking for a safe place to call home.

Write to or call your member of Congress and ask them to support the Asylum Seeker Work Authorization Act of 2023 (H.R. 1325) and not to compromise their support for displaced people through the budget process.
